

Energy-related partnering opportunities

February 2026

Renewable energies

Technology offer TODE20251215011

[North-German institute looks for R&D partners in sector coupling, heat and energy management, H2 solutions based on decentralised renewable energy provision as well as wind and solar energy technologies](#)

Research & Development Request RDRRS20260204011

[Partner Search for Horizon Europe Cluster 5 Project: AI-Driven Circular Bioenergy from Hemp Pellets](#)

Business Offer BOSK20260212027

[Slovak SME active in R&D, engineering, design and production of innovative energy technologies seeks commercial agents / strategic investor \(venture partner\) for its unique product of active heat recovery from black wastewater and waste air.](#)

Technology offer TOFR20260213023

[Autonomous offshore testing infrastructure seeking technology developers for offshore qualification](#)

Technology offer TODE20260213008

[German SME offers renewable energy solutions for residential & commercial applications with photovoltaics, heatpumps, air conditioning, charging infrastructure & hydrogen-based energy systems, seeks commercial partners and R&D partners](#)

Other topics (energy conservation, storage, distribution, etc.)

Technology offer TOAT20260206012

[Smart & compact photothermal inspection technology saving time and costs for non-destructive testing \(NDT\) of composites in aerospace, energy and automotive sectors](#)

Technology offer TOBG20260203005

[Bulgarian SME offers sodium-Ion battery cell technology under long-term commercial agreement with technical assistance](#)

Technology offer TONL20260203010

[Iron-air batteries for grid-scale long-duration energy storage is looking for partners for early deployment](#)

Business Offer BOGR20260202006

[A Greek company specialized in marine and maritime refrigeration is looking for international distributors and sales partners](#)

Technology offer TOES20260206007

[A Spanish university offers electroactive compounds for improved stability in redox flow batteries](#)

Research & Development Request RDRIT20260211028

[Partner Search for Horizon Europe Call HORIZON CL5 2026 11 D3 23 on AI Driven Data Sharing for the Energy Sector](#)

Technology offer TOIT20260210003

[Modular mechanical interface for circular electric retrofit of vehicles](#)

 Business request BRFR20260211024

[French company expert in batteries remanufacturing, is looking for European suppliers of used car, trucks & forklift batteries](#)

 Technology offer TOSK20260212029

[Slovak SME active in R&D, engineering, design and production of innovative energy technologies seeks commercial agents / strategic investor \(venture partner\) for its unique product of active heat recovery from black wastewater and waste air.](#)

 Technology offer TOAT20260212032

[Innovative internal glazing retrofit system for improving the energy efficiency of existing old wooden windows](#)

 Business request BRBE20260212028

[Belgian company seeks partner to manufacture and supply custom micro-channel heat exchanger \(MCHE\) based in the EU market.](#)

 Business request BRIE20260223014

[Irish energy consultancy seeking Japanese partners for joint participation in JICA-funded electricity sector projects](#)

 Business request BRTR20260217010

[Machinery trade company from Turkey is looking for power plant spare parts suppliers](#)

 Business Offer BOCZ20260212007

[An established Czech manufacturing company is seeking a partner for long-term commercial and production cooperation in the fields of energy, industrial automation, and special-purpose machinery.](#)

Business request BRAL20260212018

[Albanian manufacturer of infrared heating panels seeks distributors and project partners in Sweden and Norway](#)

Business Offer BONL20260205064

[Dutch media channel offering audiovisual storytelling for knowledge sharing on sustainable innovation via an open ad-free platform is looking for European partners for international visibility](#)

Technology request TRBE20260217012

[Belgian energy technology company developing advanced BESS and intelligent EMS is seeking industry and research partners to advance next-generation battery management and control systems.](#)

Technology offer TOCY20260225005

[AI-driven Energy Management and demand response platform for hotels and commercial buildings, seeking licensing and commercial partners](#)

Technology offer TOES20260225024

[3D-printed copper–cerium catalyst for efficient purification of green hydrogen technology offered for cooperation with industrial partners under commercial or research cooperation agreement.](#)
