

Energy-related partnering opportunities

April 2026

Renewable energies

Business Offer BOFI20260407009

[Finnish company offering patented biological Power to Methane technology converting green hydrogen and CO₂ into renewable e methane seeks partners in Japan and Europe for demo, scale up, and commercial deployment](#)

Business Offer BOLT20260414001

[A Lithuanian company specializing in wind measurement solutions and meteorological infrastructure is seeking subcontracting agreements.](#)

Technology request TRDE20260413017

[Partner sought for system-level integration of a multi-source renewable energy infrastructure at district scale](#)

Research & Development Request RDRFR20260420003

[French marine research organization seeking partners for Horizon Europe collaboration on the Interconnected Innovation Ecosystem call HORIZON-EIE-2026-03-CONNECT-01: "from lab to market" \(CSA\)](#)

Research & Development Request RDRFR20260423014

[A French university as coordinator is seeking partners for a European project focused on data sharing and artificial intelligence for renewable and hybrid energy systems for the call HORIZON-CL5-2026-11-D3-23.](#)

Technology request TRES20260408022

[Spanish Startup with renewable energy analytics platform for Investment Assessment is looking for partners for European Market Validation](#)

Other topics (energy conservation, storage, distribution, etc.)

Business Offer BOSI20260403013

[Slovenian renewable energy company offers photovoltaic, battery storage and energy management solutions through distribution partnerships](#)

Technology offer TOGR20260406004

[Research laboratory offering expertise in artificial intelligence, data analytics and socio-economic assessment for climate, energy and mobility projects under Horizon Europe Cluster 5](#)

Technology offer TOGR20260301002

[A Greek ESG consulting company offers a modular AI-powered sustainability data management platform for day-to-day operations](#)

Business request BRNL20260312021

[A Dutch scale up Company active in hybrid energy system Developmentis looking for an European Manufacturer of Sodium-ION Battery modules](#)

Business request BRFR20260410024

[Supplier of second-life EV battery modules sought for stationary storage unit manufacturing](#)

Business Offer BOFR20260410025

[French SME offers second-life electric vehicle batteries for stationary energy storage, seeking commercial partners](#)

Business Offer BOVN20260410010

[Vietnam-based industrial electrical engineering & automation contractor delivering EPC installation and commissioning services for manufacturing facilities](#)

Technology offer TOCH20260330003

[High-energy density hydrogen tanks for zero-emission mobility and hydrogen transport](#)

Research & Development Request RDRDE20260415018

[AI-based optimization of industrial heat energy - offered to manufacturing SMEs within GreenMantis Cascade call](#)

Technology offer TOIT20260417007

[Data driven digital platform for diagnosis and optimisation of residential energy efficiency](#)

Technology request TRDE20260420006

[German SME seeks research and supplier partnerships for electric vehicle \(EV\) traction battery remanufacturing, automation and high-voltage \(HV\) battery evaluation](#)

Business Offer BODE20260420005

[German SME offers outsourcing agreement for Battery remanufacturing as a service \(BaaS\) and supplier agreement for remanufactured electric vehicle \(EV\) batteries](#)

Technology request TRVN20260421003

[Vietnam-based high-tech integrator seeking solid-state battery technology partner for pilot deployment and market expansion in Southeast Asia](#)

Technology offer TOAT20260422017

[Austrian SME offering advanced battery testing seeks partners for R&D projects \(Horizon, CETP, ERA-NET, Ira-SME, Eureka, etc.\)](#)

Business Offer BOGR20260308001

[Revenue-generating power bank rental solution seeking partners for rapid expansion across high-traffic venues and markets.](#)

Research & Development Request RDRDE20260423007

[Potential for decarbonisation, energy efficiency and reduction in CO2 emissions based on the collection, provision and analysis of production process data - Manufacturing SME sought to adopt solution within the GreenMantis Cascade Call](#)

Business Offer BOIT20260326027

[Italian SME unlocking a broad network of alternative transport fuels via a smart card payment solution – seeking strategic partnerships with gas and fuel providers](#)

Technology offer TOES20260427009

[Spanish SME offers its ERP-based project management platform and AI pilot environment for engineering and architecture firms in Horizon Europe projects.](#)

Technology offer TOES20260427010

[Spanish engineering & innovation company seeking Horizon Europe consortia \(Clusters 1/4/5/Missions\) and offering integrated energy systems engineering, digital twins and EPC & SRI digital assessment tools for smart, low carbon buildings and districts.](#)

Business request BRR020260428019

[A Romanian Danube port city with high investment potential seeking international partners for smart and sustainable development](#)

Research & Development Request RDRIT20260428007

[Partner search for ESA call FIRST!7 structures, materials, mechanisms and processes for space transportation. An Italian start-up looks for an SME from Czech Republic, Hungary, Poland or Romania expert in multi layer insulation for cryogenic tank](#)
